Arrangements were made with A. Rucker for the laying of a concrete walk in front of Mr. Rucker's property.

Estill's Centennial.

Estill county is one hundred years old and the centennial will be celebrated at Irvine Oct. 1, in a fitting manner. Among the speakers present will be Gov. J. B. McCreary, Hons. D. Clay Lilly and V. P. Smith all prominent men reared in Estill county. Gov. Willson will also be present and speak on the occasion. A nice invitation is being mailed to all former residents of the county. The editor of this paper has received one and it is useless to say that it is our intention to be there. There is no place sweeter to us than our birthplace, and we are not ashamed that it was in Estill county.

Marriage Announcement.

Mr. and Mrs. Sebron F. Key, of Mayfield, Ky., announce the engagement of their daughter, Miss Teddie Key, to Mr. James Crews Rash, of this city. The wedding will be solemnized early in October.—Winchester Democrat.

F. P. Adams and R. W. Garrett, left Tuesday afternoon for Greencastle, Ind., to visit Dick Garrett a brother-in-law to the former and an uncle to the latter. Mr. Garrett left here thirty-eight years ago and is now very old and has partially lost his eyesight.

The worst trust of all is trusting to luck for things to turn up in our favor.

Beattyville vs. Clay City.

Beattyville has a bonded indebtedness of \$9,100.00. Some of these bonds have been running since 1890. Clay City has money in the Treasury but has no bonded or other indebtedness, in the past few years the city has built a fine highway bridge across Red river and made other rapid improvements. All that Clay City likes of doing things sure enough is to have a little more go-a-head-a-tiveness and stick-to-it-iveness.

E. D. Cook, of the U. S. Forest Service, is now at work in Powell county obtaining data for the State report on the Forest Conditions of Kentucky. Stand of timber per acre, the per acre, the per cent. of cleared and forest land, the output of timber, ties and etc., and the factor affecting growth and protection are receiving attention.

Miss Rinda Horton, of Elliott county rode over one thousand miles to meet and marry the Rev. Thomas Houghton, at Warner, Okla. The couple had never seen each other until a few minutes before the marriage, but a courtship had been carried on for two years by mail.

Car load after car load of coal is being unloaded at Clay City, and dumped into our citizen's coal houses. There evidently will be no coal famine here this winter.

The Democrats of Clay City will organize a Democratic Club at the school house tonight. Let every Democrat in the precinct attend and become a member.

The Clay City team will play a game of ball with the crack players of Stanton Sunday at the Stanton ball park.

Very Simple.

Every little while we read in the papers that some one has run a rusty nail into his foot or other portion of the body and lockjaw resulted therefrom and the patient died. If every person was aware of a perfect remedy for such wounds and would apply it, then such reports would cease. The remedy is simple, always at hand, can be applied by anyone—what is better, it is infallible. It is simply to smoke the wound or any wound that is bruised or inflamed with a woolen cloth. Twenty minutes in the smoke will take the pain out of the worst case of inflammation arising from such a wound. People may sneer at this remedy as much as they please, but when they are afflicted with such wounds, let them try it.

Pretentiousness is always an attempt at fraud. We are never made so ridiculous by the qualities we have as by those which we pretend to have.

Teeth extracted without pain, plates made, teeth filled, all kinds of crown and bride work at reasonable prices. See Dr. S. P. Hammons up stairs over S. J. Anderson for 30 days.

Well, Did You Ever?

The Clay City Times says:

The Beattyville Enterprise, like some other Republican papers, don't like what we have to say about John Langley. We tell the truth as we learn it, and are sorry our Republican brethren can't see the real facts as they are. The old maxim "the truth is what always hurts" seems to hold good and secure in this case.

The Times may tell the truth as it learns it, but it must have had sources of information. The truth will never hurt Mr. Langley. The trouble with the Times is that it is not very particular what it prints and does not take the trouble to verify its statements. Mr. Langley will win notwithstanding the heavy shots of the Times.—Beattyville Enterprise.

The Enterprise reminds us of Benjamin Sewell when he placed Langley in nomination at Winchester last spring and made use of blasphemous language. It must have the same idolatrous confidence in Langley, and if it has, of course the statement that Judge Davis will beat Langley must be verified, and this the voters of the district will promptly proceed to do at the November election, and the Enterprise can then explain how it was done in language similar to that used last spring in its issue after Adams had beaten Gourley for Circuit Judge by a vote of over two to one.

It is said to be authentically stated that at least 1,000,000 Negroes would vote against Taft. This proves conclusively that heretofore the colored vote which usually has been solidly Republican was prompted to be so through prejudice and that the Negro has had no ideas of correct government, though right he is at last.

Same Law Applies to Clay City.

The question as to how to secure pavements when property owners refuse to build them, has been a question before many city councils for years, and Winchester city fathers have been bothered as to the proper procedure. But that has been solved, and the process is easy. If the property-owner fails or refuses to build the pavement, then the city advertises and has it done and is given a lien on the property for the cost of the work. This law has been tested in all the courts and the Court of Appeals in a recent decision, said that it is all right. If some of the parties who have been notified to build pavements in Winchester do not heed the orders of the council, this law will be invoked, and at its recent meeting the council ordered the pavement committee to have them laid in accordance with this law.—Winchester Democrat.

Judge Amos Davis needs only the Democratic vote of the district to elect him to Congress. Show us one Democrat who will not support Judge Davis, and we will show you two who voted the Republican ticket last fall that will.

The Republicans in their platform concede that the tariff needs revising, but say wait until after the election. Why defer a thing needed so badly? To decoy the votes of we common people who pay nearly double what we should for all manufactured articles.

There has never been a Republican President elected only by the almost solid Negro vote. What will Taft do if he should lose 1,000,000 of these loyal supporters?

A few more City Council meetings like the one we had last Friday night, and there will be no need for further meetings.

Mr. Bryan's Earnings.

A newspaper writer recently estimated Mr. Bryan's earnings from the Commoner alone at about \$200,000, and the publisher, who is said to have been deeply annoyed, prepared to make public a full schedule of his income and fortune, but friends persuaded him not to do so. It is understood, however, that the publisher of the Commoner estimates his wealth to include the following items: House, \$26,000; farm land, \$5,000; U. S. bonds, \$25,000; investments, \$35,000, and insurance, close to maturity, which will bring the total to \$137,000. In addition to the \$10,000 salary which Mr. Bryan draws from his paper he earns money by working for other periodicals and by lecturing, for which he gets on an average about \$250.

How to Grow Big Crops.

W. H. Clayton, a Farmers' Institute instructor says that a farmer can take a worn-out field prepare it properly and sow in cow peas broadcast, plow under in the fall and the next year plant in corn. When corn is last plowed sow in cow peas and in the fall turn in hogs and feed down. He claims that by this means in five years the most worn out soil may be made to produce fifty bushels of corn or an average yield of tobacco. The cow peas is a nitrogenous plant that draws oxygen from the soil and brings up phosphoric acid from below. Few other plants are so rich in filling the soil with plant food.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them.
